

Ozone+® FineKnit

Application:

Ozone+ FineKnit is used in High-Speed Needle Knitting Machines, Circular Knitting Machines, Knitting Needles & Full Fashion Machines where Washability, Non-Corrosiveness & Anti-wear properties are required. It can be applied by Spray, Brush or Oiler Systems.

Type & Gradation:

Washable Circular Knitting Machine Oil

Performance:

Ozone+® FineKnit is made from highly refined base stocks which provide a strong thin film to ensure the high-speed movement of needles & sinker. It provides consistent performance over varying operating conditions and temperature zones & should not form any residual properties & sludge. Having excellent oxidative & thermal stability, the fluid ensures maximum performance and minimum wear during operations.

Features & Benefits:

1. Ensure Excellent Thermal & Oxidative Stability.
2. Provides Lowest Friction & Extended Life of Needles & Friction Partners.
3. Having Excellent Crushability provides Stain Free Processing for downstream.
4. No Residual Properties or Sludge & provides smoother maintenance free operations turn in to High Production Capabilities.
5. Excellent Film Formation & Wear Protection.

Packed Size Available:

(20L) (50L) (210L)

since 1981
